

# Multibore Checking System

- ✓ Arguably the cheapest solution for measuring multibores in components with following benefits.
- ✓ Easy to inspect project based system.
- ✓ All SPC Charts - X-Bar - R chart, Run-chart, Histogram, Individual readings, Pareto, Pie-Chart.
- ✓ Sequential with interlock & non sequential checking.
- ✓ Password Protected Mastering / Calibration Screen has
- ✓ Data can be exported in Text, Excel and pdf format
- ✓ Dynamic/ Static measurement possible.
- ✓ Iterations (1 parameter multiple bores possible with separate bore data saving possible
- ✓ 100 % air saving.
